Sani-Tech® Short Radius SIB 90° Elbow

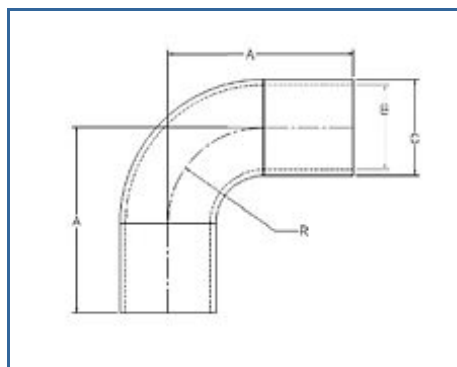

High Purity Piping

Biopharmaceutical Products

Superior Flow

Molded SIB® sweep elbows save space without sacrificing flow. The internal sweep design of the Sani-Tech® 90° elbows provides flow characteristics superior to sharp elbows. Sani-Tech® piping and components have inner dimensions based on ASME BPE standards and match stainless steel tube dimensions. This design feature facilitates sanitary transition when connecting to stainless steel components without any obstruction to the flow path.
