

COLLAPSIBLE / STACKABLE Plastic Tanks

Low cost shipping or in-plant containment tank. Can be stacked full and collapsed for consolidated empty storage. This tank is a reusable transport system for liquids, which saves money within the goods cycle.

Advantages in comparison to traditional one-way transport tanks:

- Costs per transport are reduced considerably
- Re-usable tank (only liner bag is disposable)
- Hygiene – no decaying, no corrosion, easy cleaning
- Safety – product is protected
- Easy filling, emptying and transport
- Optimal space utilization – stackable and collapsible
